Oleksandr Lysakov

Gdansk, Pomorskie | 731-930-733
lysakova@yahoo.com

Summary

Final-year Computer Science student with a solid understanding of web development technologies and experience in developing applications. Familiar with JavaScript, React, React Native, and MongoDB, and eager to learn new technologies and methodologies.Capable of working in Agile environments, offering good problem-solving skills and a collaborative mindset to contribute to dynamic teams.

 As I complete my studies in the coming months, I am seeking a junior or trainee Web Developer position, focusing on delivering high-quality software solutions and growing professionally within the industry.

Skills

JavaScript, React, MongoDB, REST, CSS, HTML

Education

WSB Merito University in Gdansk | Gdansk
Computer Science | 07/2023

Languages

English - B2

Certificates

AgilePM® Foundation

Projects

Employee Time Management System
- Developed a single solution based on client needs, currently being used by a warehouse company to manage employee work schedules, track vacations, and generate various reports.
- Created a mobile app for employees using React Native, and an admin web application for managers using React and Material UI, all integrated as a cohesive system.
- Utilized MongoDB Realm for backend services and data management, ensuring seamless communication between mobile and web applications.
